

Testimonials

Brownstein|Hyatt|Farber|Schreck

I have been working with Kelly Mackereth now for over twenty years. I have continued to use both her and others at Agren -- Blando since she joined that firm a few years ago. As the length of my experience itself attests, Kelly is my number one choice for a reporter. Her combination with Agren has strengthened my commitment to her and solidified it with the firm, which I have also used to my satisfaction in the past. Neither she nor the firm ever fail to produce the finest results, efficiently, expeditiously and most importantly accurately and with technical proficiency.

Kelly herself has always been exceptionally competent and professional, and a pleasure to work with. She conducts a professional and high quality deposition. What has impressed me significantly over the years is how she has maintained herself as conversant in state of the art and leading edge technological innovations in the reporting practice. She has carried this expertise with her to Agren, which itself was and remains a leading edge, state of the art firm. I think that the depth of support Agren has added to Kelly's practice makes her stronger, and her addition to their staff enhances their reputation as the strongest firm team in the area. In all my years, I have never experienced even a technical glitch, much less the kinds of major problems that can arise. Since joining Agren, Kelly has introduced me to other reporters in the firm, who are of a competence equal to Kelly. I now use them whenever Kelly is unavailable.

Very importantly to me, Kelly and Agren provide as prompt a turn around as is demanded. They have full ETran capability, which enables them to give instantaneous rough copy in the many cases where I need it. They can provide rough proofed draft promptly and come through with immediate final production when necessary. Agren also offers full service video of the highest quality, recorded by competent and unobtrusive videographers. This video service extends beyond depositions to a multitude of other video needs and applications.

Finally, Agren

can provide national coverage through its national network. I use them for all of my out of town needs, and have always been satisfied. Not only does Agren provide the highest quality reporters through this service, but they manage the entire process from retention to delivery and are there to deal with any issues that may arise, so you are not left dealing with an uncommitted stranger.

In short, I

recommend both Kelly individually and Agren collectively to you for all your deposition needs.

Lawrence W. Treece

My name is John Redding, and I was privileged to use your facilities for 3 depositions over the past 2 weeks. The room we used was very pleasant and comfortable, but even more impressive was the service and assistance given to us by Angel! She made everything run smoothly and she was very helpful to accommodate any last minute requests.

Our reporter, Kelly, was also extremely helpful, knowledgeable, and pleasant.

I will certainly speak highly of your firm whenever I get the opportunity.

Thank you.

John Redding
